Membership website for NFT

holders. Provides exclusive access to major events such as Coachella and the Super Bowl.

Podcast Prioritizer

[Live](#)  / [Repo](#) 

RESTful API / HTML5 / CSS3 / React / Paired Programming

This app suggests podcasts based on commute times and user search queries.

## Experience

Jr. React Developer, Bureau1024, Remote

October 2021 - June 2022

- \* Worked closely with a Lead Developer to commission multi-layered websites.
- \* Communicated with Designer in order to accommodate usability and accessibility in all browsers.
- \* Utilizes complex content management systems such as Sanity.io in order to provide our clients the freedom to edit their sites with ease.

Specialist, Apple, Toronto

August 2019 - October 2021

- \* Discovered customers' hobbies and passions in order to recommend the optimal hardware/software solutions to fit their needs.
- \* Collaborated with team members to promote phone upgrades via Canadian cell carriers such as Bell, Telus, and Rogers.
- \* Encouraged a strong sense of ownership among owners of Apple devices by promoting personalized services such as AppleCare+ and iCloud.
